What makes MentorMe unique?

INNOVATION AND LEARNING

- Real-world applications
- Innovative projects
- Practical Learning

STUDENT DEVELOPMENT

- Holistic development
- Parent engagement
- Expos and fairs

ACCESSIBLITY AND SUPPORT

- Design Thinking
- Branding support
- Teacher training

EXPERTISE AND CUSTOMIZATION

- Exposure to AI career pathways
- Customized programs

AI Impact

- AI is transforming industries (healthcare, finance, manufacturing, etc.).
- AI is reshaping jobs and the skills required for future employment.
- AI will automate repetitive tasks, data processing, and some manual labor.
- AI will create jobs in AI development, data science, human-AI collaboration, and specialized technical fields.

Why AI Education for Students?

- Students need AI education to adapt to new AI-driven careers.
- AI education will equip students with the evolving skills to solve real-world problems.
- AI education will prepare students to be future leaders in an AI-driven world.

Career Opportunities in AI

- AI ML Engineer
- Deep Learning Engineer
- AI Research Scientist
- AI Product Manager
- AI Consultant
- VR & AR Developer
- Data Scientist
- Autonomous Vehicle Engineer
- Cybersecurity Analyst
- AI FinTech Analyst
- AI Powered Content Creator
- AI-driven Game Developer

Leaders in AI

India's Industry Leaders Using AI to Drive Success

|	
tcs TATA CONSULTANCY SERVICES	Uses generative AI for product development, reducing cycle time by 20%.
Hindustan Unilever Limited	AI-powered demand forecasting and supply chain optimization.
TECH mahindra	AI-driven digital transformation in telecom, healthcare, and retail.
RELIANCE	AI-driven 'Jio Brain' and AI-ready data centers for cost-effective AI applications.

Siemens AI Based Quality Control System

Artificial Intelligence, Computer Vision and Neural Networks being used to identify defective products

Design Thinking For AI Models

Design thinking is a holistic approach to problem-solving that encourages students to develop creative and effective solutions.

EMPATHIZE	DEFINE	IDEATE	PROTOTYPE	TEST
Understand real-world problems & Conduct research	Analyze the problem and clearly define it	Generate creative solutions using **AI, ML, CV and NLP technologies**	Build functional models and simulations	Test and refine the prototypes

MentorMe has guided students of HPS, Nizamabad to build a chatbot for admission related queries of Parents

Our AI Program

5 Days	Year Long

Modules

5 Days
- Introduction to AI
- Python Programming basics
- Computer Vision
- Natural Language Processing
- 5 Interesting Projects

Year Long
- Introduction to AI
- Programming Basics for AI ML
- Machine Learning Basics
- Computer Vision
- Natural Language Processing
- 10 - 15 Interesting Projects

Key Projects

5 Days
- Create a Quiz game
- Design Guessing games
- Mask –No Mask Detection
- Build a Chatbot
- Object Detection

Year Long
- Build chatbots
- Develop virtual assistants
- Weather prediction models
- Image classification
- Emotion detection
- Car Theft Alarm
- Smart Home Automation

AI projects

5 Days
Upto 10 projects

Year Long
10- 15 projects

Training Duration

5 Days
5 days of Training

Year Long
Customized training built on Institutional Requirement

Expo

5 Days
Expo with 10+ projects

Year Long
Expo with 15+ projects

Branding Support

5 Days
Designs for parent invitations and Banners

Year Long
Designs for parent invitations, Banner, flexi and Social Media Posts

Learning Material

5 Days
N/A

Year Long
Regular learning resources, project reports and fun quizzes

Pricing Plan

Program	100-200 Students	Above 200 Students
5 Days bootcamp + 1 Day Expo	Rs. 1999 + GST	Rs. 1499 + GST

Worshop + Expo

Year-long (AI Venture) + Expo

Weekly or Biweekly or Monthly sessions for 3-8 months

Quote provided based on selected program and duration

Note: Minimum batch size for AI Year-long training program is 100 students
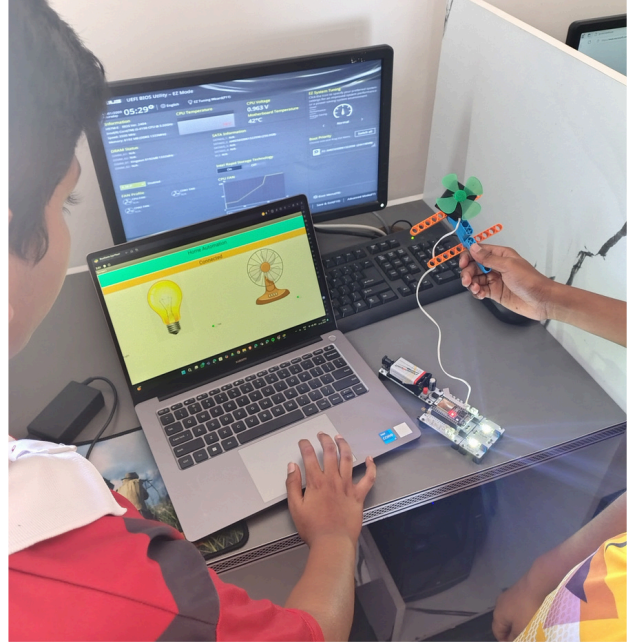

Terms and Conditions:

- **Hands-on Format:** This is a practical, hands-on training program requiring access to computers during sessions.
- **Offline Training:** This in-person training will be conducted at the school premises by expert trainers.
- **Lab Requirement:** The school must provide a computer lab with at least one system for every two students for effective participation.
- **School Support:** A school-appointed assistant teacher or coordinator should be available during training hours.

Recommended System Requirements:

- **Processor:** Intel i5 / AMD Ryzen 5+
- **RAM:** 8–16 GB
- **Storage:** 256 GB SSD+
- **OS:** Windows 10/11, or macOS
- **Display:** 19-inch or larger LED monitors
- **Networking:** LAN and Wi-Fi enabled
- **USB Ports:** Minimum 3 USB ports
